THE MARK MAKERS

# THE STORY OF CROSS IS ONE OF INSPIRATION, INGENUITY, AND PASSION FOR EXCELLENCE...

...of how a pen came to  
symbolise achievement, human  
potential, and usable luxury.

It's a story that began in 1846  
when Richard Cross, an English  
artisan, sailed to America and  
set about making ingenious  
writing instruments. It's the  
story of how Richard and his  
son Alonzo Townsend Cross  
would forever change the way  
the world puts ink to paper.

The spirit of the Cross family  
still abounds, wherever  
entrepreneurship lives, when  
a vision comes to life, when  
teamwork builds something great,  
when an idea is born, plans made,  
verse perfected. The essence  
of Cross today, as it was in the  
beginning, lies in the doing: in  
seeking and finding, in the pursuit  
of greatness, unique to each  
individual, in making your mark.

## TIP TECHNOLOGIES

Cross luxury writing instruments are available in a wide variety of tips, to suit many consumers' needs. Depending on the item, the tip technologies available to our consumers are:

### FOUNTAIN PEN

- One of the oldest styles of writing instrument, fountain pen nibs actually adapt to your own personal grip and writing style over time, creating lines on the page that — like your signature — are all your own. Ink flows by capillary action from an ink reservoir to the fountain pen nib, which is the delicate split metal mechanism which contacts the paper. A favourite of the true connoisseur, fountain pens are each a work of art in their own right.
- Cross offers nibs in two widths: Medium & Fine
- Five different materials (see chart below):
- Cross Fountain Pens support two different feed systems:
  - Cartridge, or a replaceable capsule full of ink which is inserted into the neck of the nib.
  - Converter, which allows the writer to load liquid bottled ink and insert it into the writing instrument.

### BALLPOINT PEN

- The Ballpoint is the most popular tip technology and in many ways the simplest. A Ballpoint pen uses a small rotating ball made of carbide to disperse ink as you write. This ball acts as a buffer between the material you're writing on and the ink inside the pen. The ball rotates freely and rolls out the ink as it is continuously fed from the ink reservoir.
- Ballpoint Pens are not capped, but instead retract and store via a rotating mechanism in the barrel.
- Low maintenance and easily refillable, the Ballpoint Pen is the option for the everyday pen user.

### PENCIL

- Cross mechanised pencils are offered in all Century finishes. The size of the mechanical pencil's line is 0.7 mm which is determined by the width of the lead.
- For the traditionalist as well as professionals in drafting and drawing fields, Cross Pencils offer fine quality and a lifetime mechanical guarantee.

### SELECTIP ROLLING BALL

- Our most versatile tip technology is proprietary to Cross, and is known as Selectip Rolling Ball. A Selectip allows you to "select" the kind of refill you want to use in this writing instrument from the following options:
  - Gel Rolling Ball (a mix of Ballpoint ease of use and the elegance of Fountain Pen ink-flow)
  - Jumbo Ballpoint (Ballpoint technology with a bolder, fuller write-out)
  - Porous-Point (most commonly known as a Flair or Marker Point)
- The inks in a roller ball are generally aqueous based. This results in a smoother, fluid (or wet) lay-down of ink similar to a Fountain Pen. Aqueous based inks, due to their fine fluidity, also tend to dry out quicker, thus care must be taken to always cap, or retract, Selectip pens between uses.
- Unlike Ballpoint Pens, most Selectip Pens have a separate cap which prevents the ink from drying during storage.

### GEL INK PEN

- The tip technology of gel ink has been rapidly gaining popularity over the past few years and Cross now has several retractable gel ink writing instruments.
- Gel inks are generally aqueous based. This results in a smoother, fluid (or wet) lay-down of ink similar to a Fountain Pen.
- Aqueous based inks, due to their fine fluidity, also tend to dry out quicker, thus care must be taken to always retract the tip after use.

## ENGRAVING SERVICES

### STANDARD ENGRAVING

Most Cross writing instruments have an area on the cap for engraving. Standard caps accept one line of engraving. The barrel section of writing instruments cannot be engraved.

- Engraving methods for precious metal caps include drag, deep-cut without colour, deep-cut enamel filled and laser.
- Drag engraving offers a choice of block, script and double-line Gothic type styles.
- For deep-cut, enamel-filled engraving, type styles include block, script and Times Regular. Colour-fill options vary by product. Medalist® and chrome plated finishes accept gold tone. Lacquer finishes with gold plated appointments are colour-filled with gold tone. Lacquer and satin finishes with rhodium or chrome plated appointments are filled with silver tone.
- For standard engraving, production lead time is three to five working days. Please allow ten working days for personalised signature engraving.

## WARRANTIES

### WRITING INSTRUMENT FULL PERPETUAL WARRANTY

All Cross writing instruments and desk set penholder mechanisms are unquestionably guaranteed against mechanical failure, regardless of age. Any Cross product or part requiring service under this warranty will be repaired or replaced at no charge when received at our factory from the consumer (postage and insurance are the responsibility of the consumer and processing fees may apply). Any such product that is no longer in production and cannot be repaired will be replaced with a comparable Cross product. Leads, erasers, ink refills and stylus tips exhausted in the course of normal use, and emblems and other customised decoration, are excluded from this warranty; also excluded are fountain pen nibs and other parts damaged from impact, unreasonable use or obvious abuse, as well as wear, aging discolouration or other deterioration of the leather wrapping. The Cross guarantee extends our assurance of a lifetime of writing pleasure to every owner of a Cross writing instrument. This warranty gives you specific legal rights, and you may have other rights which vary from state to state or jurisdiction to jurisdiction. Customers are advised to obtain insurance against loss or damage when shipping products to Cross. Without proof of shipment, Cross cannot replace product it does not receive.

### WARNING

Pen caps can obstruct breathing. Keep out of mouth. This product is not intended for children.

### APPLICABLE TO STYLUS TIPS

In no event shall CROSS be liable for incidental or consequential damages of any kind or character including, without limitation, physical damage to the surface of hand-held PCs, cell phones, smart phones or other electronic devices. Some states and jurisdictions do not allow the exclusion of incidental or consequential damages, so the above exclusions may not apply to you.

### LEATHER FULL ONE YEAR WARRANTY

All Cross personal accessories are unquestionably guaranteed against mechanical failure and defects in workmanship for one year from the date of purchase. Any Cross accessory or part requiring service under this warranty will be repaired or replaced at no charge when received from the consumer at our factory. Postage and insurance are the responsibility of the consumer, and shipping and handling fees may apply. Any such product that is no longer in production and cannot be repaired will be replaced with a comparable Cross product. Logos, engraving and other decorations are excluded from this warranty, as are parts damaged from impact, unreasonable use or obvious abuse and materials which become worn in the course of normal use.

This warranty gives you specific legal rights, and you may have other rights which vary from state to state or jurisdiction to jurisdiction.
